

# EUROPEAN OUTDOOR FILM TOUR 2022

## NEW ADVENTURES ON THE BIG SCREEN

The **European Outdoor Film Tour 2022** is just around the corner! The adventure backpack is filled to capacity with stories of people who follow their passions wholeheartedly. The **EOFT** creators are excited to present the next edition of the most popular event series of its kind in fall 2022.

Detailed information on the overall program will follow at the end of August. The „new face of adventure“ at **EOFT 2022** has already been selected—**Ultrarunner Timothy Olson!**

**The premiere** will take place **on 13 October 2022** in the Alte Kongresshalle in Munich, followed by an extensive tour throughout Europe. Over 400 events are planned. The total running time of the films in characteristic EOFT style is around 120 minutes. With its supporting program—including moderation, prize drawing, and intermission—the event fills about 2.5–3 hours. Event dates and locations have been set; advance sales have started and tickets are available now.

## TIMOTHY OLSON THE NEW FACE OF ADVENTURE

In the summer of 2021, **Timothy Olson** faced the greatest challenge of his career on the **Pacific Crest Trail**. People usually complete the PCT in five to six months. Timothy, however, succeeds in establishing a new record for the fastest time. He completes the 2650-mile (4265-km) route in an incredible **51 days, 16 hours, and 55 minutes**. In the process, he ran about 50 miles (80 km) a day!

Timothy is no stranger to the trail-running scene. He won the prestigious 100.2-mile „Western States Endurance Run“ twice in a row (2012 and 2013) and even set a new course record. As a family man (a father of two), he can consistently rely on his wife and children to accompany him on his adventures. And his daily meditation helps him maintain focus. In the EOFT 2022 film **THE MIRAGE**, we try to keep up as we follow Timothy across the dusty trails of the western U.S.!

### ABOUT MOVING ADVENTURES MEDIEN

Moving Adventures Medien GmbH was founded in 2001 and specializes in the conception, organization, and marketing of film tours in the outdoor, sports, nature, and adventure sectors. The best-known formats of the Munich-based entertainment company are the European Outdoor Film Tour and the International Ocean Film Tour. In addition to the two in-house productions, Moving Adventures is a licensee of the Banff Mountain Film Festival. The company's portfolio also includes the digital ticketing platform Outdoor Ticket and the streaming portal Outdoor Cinema. The team, along with its two managing directors Joachim Hellinger and Thomas Witt, consists of 35 employees and a five-team road crew of about 70 technicians and support staff.
